SKILLS

- **Languages:** Python, JavaScript, C, C++
- **Technologies:** HTML, CSS
- **Databases/Tools:** PostgreSQL, MongoDB, Git, GitHub, Figma
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

PROJECTS

AI StudyFlow | GitHub

Nov 2025 - Aug 2026

- Architected an AI-powered academic suite with 6 integrated modules — study planner, notes explainer, flashcardgenerator, MCQ quiz engine, mood-based coach, and focus timer.
- Integrated Google Gemini API with a 3-tier model fallback chain and a custom offline fallback engine, ensuring 100%feature availability even without API access.
- Designed 5 REST API endpoints on a modular Express controller/route architecture for clean separation of concerns.
- Built a 7-page responsive frontend with dedicated styling and logic per module.
- **Tech Stack:** Node.js, Express.js, Google Gemini API, JavaScript, HTML5, CSS3, REST APIs

CinemaDB — Movie & TV Discovery Platform | GitHub

Aug 2026

- Built a 10-view single-page app (home, movies, TV, trending, genres, discovery wizard, watchlist, detail page) withhash-based routing.
- Integrated TMDb API and JustWatch streaming data across 5 regions, with in-app YouTube trailer playback.
- Engineered a 4-step mood-based recommendation wizard with match-percentage scoring.
- Added response caching + request deduplication for performance; persistent watchlist via localStorage.

Personal Portfolio Website | GitHub

Aug 2026

- Created a responsive full-stack portfolio using React 18, Vite, and Tailwind CSS with animated UI sections and liveGitHub/LeetCode activity widgets.
- Integrated a Node.js/Express backend with the Resend API for real-time contact form delivery, secured with CORS originwhitelisting.
- Displayed 4 verified certifications with direct credential links.
- Deployed on Vercel with Vercel Analytics integrated.
- **Tech Stack:** React, Vite, Tailwind CSS, Node.js, Express.js, Resend API

TRAINING

Community Development Project

July 2026

Python Tutoring - Python YouTube Lectures

- Taught Python programming offline at **SS Coaching Classes**, helping students build a strong foundation in programming.
- Covered core Python topics including variables, control flow, data structures, functions, file handling, and Object-Oriented Programming through interactive sessions and hands-on practice.
- Conducted regular doubt-solving and practice sessions to strengthen students' understanding and problem-solving skills.
- Prepared customized notes, examples, and practice questions to make complex concepts easy to understand and apply.
- Completed **30+ hours of Python teaching** and helped students improve their coding confidence and logical thinking.

CERTIFICATES

MongoDB Basics for Students MongoDB	Aug 2026
Generative AI Essentials IBM	Aug 2026
Introduction to Cyber Security Infosys	July 2026

EDUCATION

Lovely Professional University <i>Bachelor of Technology - Computer Science and Engineering; CGPA: 8.33</i>	Phagwara, Punjab Aug 2025 - Present
Shree Ram Inter college <i>Higher Secondary Education; Percentage: 84%</i>	Agra May 2023 - Mar 2024
S.D. Public School <i>Secondary Education; Percentage: 92%</i>	Kota Jun 2024 - Mar 2025
